

Interested in learning how to keep your septic system functioning properly?

Attend a Homeowner Maintenance of Septic Systems Course for Free!

The course provides a basic understanding of the operational and maintenance activities of conventional and aerobic septic systems, with a focus on aerobic systems, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, an overview of how to inspect and maintain the system, and goes in depth on aerobic systems and their operation and maintenance. This course also provides answers to the most frequently asked septic system questions, including when to pump out a tank and what can or cannot go down the drain. The class will provide homeowners in Guadalupe County with the **certification to maintain their own aerobic system**. It is your responsibility to notify the Guadalupe County Environmental Health Department upon your completion of the course.

WEDNESDAY, SEPTEMBER 18, 2019, 8:30AM–4:00PM

**Guadalupe County AgriLife Extension Office
210 E. Live Oak Street
Seguin, TX 78155**

Cost: Free!

To register: Seating is limited, so contact Ward Ling at wling@tamu.edu or at 979-845-6980 to register.

Additional Information

- The class is **free**.
- At the end of the class you will receive a certificate that you will need to provide to the Guadalupe County Environmental Health office (phone 830-303-8858, fax 830-372-3961), if you live in Guadalupe County, and are planning to do your own maintenance.
- We will break an hour for lunch, and lunch is on your own. You are welcome to bring your lunch and eat in the meeting room, or head out and return within an hour.
- Due to the anticipated full size of the class, please be prepared to stay until 4:15 or slightly later, in order to cover all the material and adequately answer everyone's questions.
