

Interested in learning how to keep your septic system functioning properly?

Attend a Homeowner Maintenance of Septic Systems Course for Free!

The 6 hour course provides a basic understanding of the operational and maintenance activities of conventional and aerobic septic systems, and explains how activities within the home impact septic systems. Presentations will cover the treatment processes, health and safety considerations, an overview of how to inspect and maintain the system, and goes in depth on aerobic systems and their operation and maintenance. This course also provides answers to the most frequently asked septic system questions, including when to pump out a tank and what can or cannot go down the drain. The class will provide homeowners in Guadalupe County with the **certification to maintain their own aerobic system.**

Course Information:

TUESDAY, OCTOBER 17, 2017, 8:30AM - 4:00PM

**AgriLife Extension Office
210 E. Live Oak Street
Seguin, TX 78155**

Cost: Free!

To register: Seating is limited, so contact Ward Ling at wling@tamu.edu or at [979-845-6980](tel:979-845-6980) to register.

Why Should You Attend?

Septic systems are not “flush and forget” systems! Therefore maintenance is essential to ensure proper function and longevity of your septic system. Attendees will gain a better understanding of how to maintain their septic system to protect the health of their family and the environment. If you are taking the class to be certified to maintain your own system, you will receive a certificate upon completion of the class. It is your responsibility to notify the Guadalupe County Environmental Health Department upon your completion of the course.

Funding is made possible through the Clean Water Act
