

The Geronimo and Alligator Creek Partnership will conduct a mini-tour of the watershed on Tuesday November 1<sup>st</sup>, at 1:30pm. The draft Watershed Protection Plan was recently completed and is posted on the project website (<http://www.geronimocreek.org/>). The purpose of the tour is to better explain and illustrate what impacts the WPP will potentially have on the local area.

We will meet at the GBRA River Annex parking lot at 1:30 on Tuesday, November 1<sup>st</sup> for the tour. Please allot approximately 2 hours for the tour. In order to secure a seat on a van, please RSVP to Ward Ling (979-845-6980, [wling@ag.tamu.edu](mailto:wling@ag.tamu.edu)) by 5pm October 28<sup>th</sup> by either phone or email.

The tour will leave the GBRA River Annex (905 Nolan St, Seguin) and travel to the upper end of the watershed near New Braunfels for the first stop, where we will hear about some proposed urban BMPs. From there we will travel to the next stop where we will learn about agricultural BMPs and feral hog control measures. Our last stop will be at the Oak Village North Subdivision near Seguin, where we will learn about the ongoing project to take the neighborhood off of septic systems and provide sanitary sewer service to the homes. We will then return to the GBRA River Annex. Refreshments will be provided during the tour.

In case you missed any meetings, you can review past meeting materials on the project website. If you have any questions, please contact Ward Ling with Extension at 979-845-6980 ([wling@ag.tamu.edu](mailto:wling@ag.tamu.edu)) or Debbie Magin with GBRA at 830-379-5822 ([dmagin@gbra.org](mailto:dmagin@gbra.org)). Don't forget to visit our website at <http://geronimocreek.org> to learn more about the project.

This will be an informative and fun event, and it would be great if you could attend. Please remember to RSVP in order to secure a seat on the tour vans.
